

Internal Grant Request Application

Requests can be made to support existing HRC programs and services. Grants may fund new programs or service endeavors, address unfunded program or service needs, and assist individual HRC consumers in their homes when a health and safety issue arise. Requests can also be made for individuals in need for adaptive/assistive equipment or technology. Grant assistance is also available for heating and meal costs associated requests are identified that might otherwise go unfunded and could ultimately affect an individual's quality of life.

Each grant request is individually reviewed for consideration. Please note that depending on the nature of the grant request, it may require HRC administrative approval before proceeding to the HRF Board for review. There may be instances when a request does not advance to HRF for consideration or even if it does, it may not be approved for funding through the foundation. The same notation applies to our HRC Staff Grants Innovative Ideas Program.

APPLICANT INFORMATION HRC PROGRAM AND LOCATION

**Please complete the following information in its entirety*

HRC PROGRAM AND ADDRESS:

STAFFCONTACT_-----
