### **HISTORY**

Guided by a mother's wish for her son, a passionate and committed group founded the Human Resources Foundation in 2015.

Jeanne Schreiber's youngest child was born with Down Syndrome in a time when the recommended course of action was institutionalization. From his birth to her death, Jeanne was a fierce advocate, not only for her son, but for all individuals with disabilities in the community.

Mrs. Schreiber extracted a promise from the former CEO of the Human Resources Center to form a Foundation that would grant her dying wish of securing the future for those she fought so steadfastly for in her life. Her legacy lives on through the efforts of the Human Resources Foundation today.

### **WHO WE ARE**

The **mission** of HRF is to enhance the quality of life and well-being of individuals with disabilities throughout Northeastern Pennsylvania. Our **vision** is for a community that embraces accessibility and choice; one that champions inclusion, diversity, and equal opportunity so that everyone may live their life to his/her fullest potential.

### **WHAT WE DO**

Through grantgiving, we provide financial support to our sister agency, the Human Resources Center, and to organizations throughout six counties in NEPA whose mission aligns with the support and advancement of individuals with disabilities.

Through the financial support of various programs, services, and special project initiatives, our hope is to provide greater opportunity and accessibility - working towards a more inclusive community for all.

### **SUPPORTING HRF**

If you are someone who aspires for a community built upon inclusion, diversity, and equity, then you are someone who supports our cause. At HRF, we believe in opportunity and accessibility where anything is possible. And together, the possibilities are endless. Even if you yourself have not had the privilege to know, love, or care for someone with a disability, our mission and vision are something that each and every one of us can strive to achieve for the collective.

**"Inclusion is not bringing people in to what already exists; it's making a new space, a better space, for everyone." - George Dei**
